# NEW & UPDATED FOR 2025

Having to choose between a light pack and uncompromising comfort is a thing of the past. Prioritizing comfort in the backcountry has emerged as the modus operandi for many new and experienced outdoorspeople, and the 2025 product line-up is perfectly positioned to empower users to do exactly that. Featuring exciting innovations and improvements that deliver comfort and versatility without sacrificing on weight, this new gear is sure to get more people stoked to go outside.

## NEOLOFT™

True car camping comfort that can be packed and carried into the backcountry. Turns out the next big thing is actually light and compact.

Page 14

## BOOST 650™

The Boost 650 empowers you to find the right combination of warmth and internal space that makes you truly comfortable. It's the Goldilocks sleeping bag, always just right.

Page 28

## SWITCH™ STOVE SYSTEM

The most versatile and high-performance stove system in its class, with a pressure regulator and flip-out pot supports to accommodate a variety of cookware.

SLEEPING PADS

# THE BEST DAYS START AND END WITH THERM-A-REST

PHOTO: MIRAE CAMPBELL

**SLEEPING PADS****THE ALL-NEW  
NEOLOFT™**

The next big thing in backpacking sleeping pads, the NeoLoft is the offspring of our game-changing NeoAir® line and our peak-comfort car camping pads. Thick, light, plush and compact, you've never carried more comfort deep into the backcountry.

**INTRODUCING  
THE  
BACKPACKING  
COMFORT  
CATEGORY**

Our Trek & Travel category is now called Backpacking Comfort. As the bridge between our other two categories, it's all about cutting-edge sleep gear that harmonizes backcountry weight and packability with car camping comfort. With two groundbreaking new products enriching the category, we figured it needed a fresh name that speaks directly to what so many of our customers want.

# SLEEPING PAD TECHNOLOGY

## THERMACAPTURE™

An innovative, proprietary material that reflects radiant heat and minimizes heat loss without adding extra weight or bulk.

## TRIANGULAR CORE MATRIX™

Patented technology utilizes two stacked layers of triangular baffles to create a stable surface while minimizing heat loss.

## CONTOUR CORE MATRIX™

We modified our industry-best Triangular Core Matrix™ air pad construction with comfort-forward materials so that it contours, cushions, supports, insulates and still packs down small.

## PREMIUM STRETCH KNIT FABRIC

This durable knit fabric is base-layer soft and contours to your body—unlike the woven fabric of other pads—for a pressure-point-free cradling sensation.

## PRESSURE-MAPPING

We use pressure-sensitive measurements to vary the support in our pads to provide intentionally placed support and comfort.

## DIE-CUT FOAM

A cut structure that allows for a lower density foam, which means a lighter weight and more compact pad.

## THERMAL FOAMS

Open cell foam structure traps air to deliver a higher R-value foam that provides consistent support and durability.

## STRATACORE™ FOAM

Yielding the best warmth-to-weight ratio of any self-inflating pad, StrataCore uses a continuous layer of thermal foam nestled between alternating ridges of air and foam.

## RIDGEREST & Z LITE

Our unique patterns boost warmth with air-trapping peaks and valleys. Dual-density foam provides a durable and soft sleeping surface. The nesting Z Lite pattern maximizes compactibility.

## TWINLOCK™ VALVE

The TwinLock makes using our larger, high-volume pads a dream by utilizing two high-flow one-way valves. One for inflation and one for deflation. Simple.

## WINGLOCK™ VALVE

Set off the sleeping surface for maximum utility, the high-flow one-way WingLock makes inflation and deflation a breeze.

# SLEEPING PAD R-VALUE

## ITS ALL ABOUT FINDING THE RIGHT PAD

A standardized R-value may allow direct comparison of sleeping pad insulation across brands, but which R-value is the right one? Figuring out the R-value you need is a key step in finding your pad, which is why Therm-a-Rest developed an easy-to-read seasonality chart. We built this seasonality chart as a guide. Variables such as humidity, type of shelter and personal preference all effect how warm a sleeper is on any given night. No chart can replace experience for knowing the right R-value for a personalized sleep system.

### NeoAir® XTherm™ NXT

### NeoAir® XTherm™ NXT MAX

With the best warmth-to-weight ratio of any sleeping pad ever created, the XTherm NXT is the top choice for alpinists, backpackers and ultralight travelers chasing cold-weather pursuits.

- **Warmest Air Pad in its Class:** Triangular Core Matrix™ construction and ThermaCapture™ technology deliver a 7.3 R-value, while minimizing weight and bulk.
- **Ultralight:** 16 oz (439 g) means warmth without the weight typically needed to stay warm in frigid conditions.
- **Premium Comfort:** At 3 inches (7.6 cm) thick the XTherm NXT delivers exceptional support and comfort.
- **Ultra-packable:** Packed size rivals that of a conventional 1-liter bottle.
- **Durable:** 70D nylon fabric bottom resists punctures during extensive use.
- **Easy to Inflate & Deflate:** WingLock™ valve is easy to use in freezing conditions, features one-way inflation, and maximizes airflow to make inflating and deflating a breeze.
- **MAX Coverage:** Rectangular shape with extra width provides added coverage and enhanced comfort at camp (XTherm NXT MAX only).
- Pump sack, stuff sack and repair kit included.

## NeoAir® XLite™ NXT NeoAir® XLite™ NXT MAX

Quieter, thicker and as iconic as ever, this is the next level of the most versatile all-around ultralight air pad.

- **Quieter:** 6x quieter than previous model thanks to a refinement in how the ThermaCapture™ layer is integrated into the Triangular Core Matrix™.
- **Premium Comfort:** At 3 inches (7.6 cm) thick the XLite NXT delivers exceptional support and comfort.
- **Ultralight:** 13 oz (370 g) drives pack weight down by minimizing the weight of an essential sleep system component.
- **Ultra-packable:** Packs as small as a conventional 1-liter bottle.
- **Elite Warmth:** Triangular Core Matrix construction delivers a 4.5 R-value and class-leading warmth-to-weight ratio, making the XLite NXT ready for three-season and some winter pursuits.
- **Durability:** 30D ripstop nylon offers greater protection from punctures than the competition.
- **Easy to Inflate & Deflate:** WingLock™ valve is easy to use, features one-way inflation, and maximizes airflow to make inflating and deflating a breeze.
- **MAX Coverage:** Rectangular shape with extra width provides added coverage and enhanced comfort at camp (XLite NXT MAX only).

### ProLite™ Apex™

The pinnacle of self-inflating comfort and performance, the Apex offers unrivaled warmth without adding excess bulk and weight to your pack.

- **StrataCore™ Construction:** Yielding the best warmth-to-weight ratio of any self-inflating pad, StrataCore uses a continuous layer of thermal foam nestled between alternating ridges of air and foam.
- **Lightweight Comfort:** Our warmest ProLite ever allows three-season adventuring without weighing down a pack.
- **Rugged, Self-inflating Foam:** Expanding open-cell foam core self-inflates; top off with just a few breaths for personalized firmness on 2 inches (5 cm) of StrataCore loft.
- **Easily Fits in Your Pack:** Packs down small to easily find a place in your pack during fast and light adventures.
- **Easy to Inflate & Deflate:** WingLock™ valve is easy to use, features one-way inflation, and maximizes airflow to make inflating and deflating a breeze.

### NeoLoft™

Car camping comfort with backpacking specs—you’ve never slept like this in the backcountry.

- **Built to Backpack:** With a weight of 710 g (Regular size), a packed size not much larger than a 1L water bottle and a 4.7 R-value, you can take car camping comfort deep into the backcountry.
- **3D Sidewall Construction:** A 4-inch-thick profile and a broad squared-off sleep surface is ideal for side sleepers, nighttime movers and any sleeper that likes comfort—so everyone, really.
- **ContourCore Matrix™:** We modified our industry-best Triangular Core Matrix™ air pad construction with comfort-forward materials so that it contours, cushions, supports, insulates and still packs down small.
- **Premium Stretch Knit Fabric:** This durable knit fabric is base-layer soft and contours to your body—unlike the woven fabric of other pads—for a pressure-point-free cradling sensation.
- **Side Rails:** Side rails cradle the sleeper in place and provide a tactile sense of the edge to minimize roll-offs and cold spots.
- **Advanced Valve System:** TwinLock™ Valve technology pairs with seam-sealed pump sack to make inflation a breeze and allows for precise firmness control.
- Comes with compact stuff sack, high-volume pump sack and repair kit

## WELCOME TO THE COMFORT REVOLUTION...

...and get ready for the most comfortable nights you've ever experienced backpacking. If an XLite NXT and a MondoKing had a baby, it would be the NeoLoft. With a lightweight and warmth-efficient internal structure, a luxurious comfort-driven 3D profile, and a silky-soft stretch knit surface, the NeoLoft is designed to cushion, cradle and contour all night long. Quite simply, it's the most comfortable backpacking air pad ever created.

### ContourCore Matrix™

By modifying our NeoAir line's Triangular Core Matrix internal construction with more flexible and stretchy materials, we were able to make an ultra-thick pad that provides game-changing contouring support and year-round warmth all while delivering the weight and packability performance needed for backpacking.

### Stretch Knit Fabric

Silky-soft and stretchy, this base layer-like material contours to your body to minimize pressure points.

### Side Rails

Raised chambers along the sides of the pad provide a tactile sense of the edge, cradle you in the center and prevent roll-offs.

### 3D Construction

Allows the sleeper to fully utilize the broad sleep surface while enjoying 4.6 inches (11.7 cm) of thick, cloudlike support and cushion.

### TwinLock™ Valve System

High flow one-way inflation; pump sack compatible; finetune firmness while you lay on the pad; dedicated deflation valve; easily replaceable. It's the most functional high-volume valve system on the market.

## WHY STRETCH KNIT?

Integrating stretch knit fabric into a compact backcountry air pad represents a big step forward for backpacking comfort.

Stretch Knit...

...feels like a base layer and is much softer next-to-skin than traditional sleeping pad fabrics.

...fibers are knitted not woven like traditional pad fabrics. Knit's superior elasticity allows it to stretch in every direction and contour to provide your shoulders, hips, knees, etc. custom support.

...is just as durable as our other sleeping pad fabrics and can easily be patched with the repair kit.

## BaseCamp™

**A tried-and-true pad built to offer supreme comfort in the frontcountry.**

- **Thick:** 2 inches (5 cm) of thickness provides a high level of warmth and support.
- **Plush Fabrics:** Light, soft fabrics make this mattress exceptionally comfortable.
- **Premium Self-Inflating Foam:** Solid foam creates a warmer and more stable sleep surface, while compressible foam core expands when unpacked for easy self-inflation.
- **Durable:** Sturdy, classic design provides an outstanding value.
- **Easy to Inflate & Deflate:** WingLock™ valve is easy to use, features one-way inflation, and maximizes airflow to make inflating and deflating a breeze.
- Stuff sack included.

## SLEEPING PAD ACCESSORIES

### BlockerLite™ Pump Sack

A versatile sack for inflating your pad and protecting your gear.

- **Timesaving:** Inflates your pad faster than breath inflation. Securely snaps onto Therm-a-Rest valves.
- **SealLine® Protection:** Built with ultralight waterproof BlockerLite™ material from our pals at SealLine, this dry sack is extra durable and features welded seams to keep your gear dry and protected.
- **Versatile:** Doubles as a lightweight 20-liter dry sack when it's time to hit the trail.

	BlockerLite™ Pump Sack
SKU	13228
DIMENSIONS	14 x 26.5 x 48 cm (5.5 x 10.4 x 18.8 in)
WEIGHT	75 g (2.7 oz)
MADE IN	CHINA

### Universal Couple Kit

Combine any two mattresses (60 inches combined) for extra sleeping space.

	Universal Couple Kit
SKU	05228
MADE IN	CHINA

### Valve Repair Kits

The do-it-yourself kit for replacing either a WingLock™ or classic valve.

- INCLUDES:**
- Replacement valve

	WingLock™ Repair Kit	Classic Valve Repair Kit
SIZE	13285	13312
MADE IN	ASSEMBLED IN USA	

### Permanent Home Repair Kit

For the larger repairs of your mattress. Requires 12-18 hour cure time.

- INCLUDES:**
- Pressure adhesive patches, alcohol prep pads, wooden applicator, 2 oz tube of adhesive

	Permanent Home Repair Kit

# INTRODUCING THE BOOST 650™

NEW

Delivering cutting-edge innovation to the everyday backpacker, the down-insulated Boost 650 powers sleepers to new heights of comfort in the backcountry with patent-pending WarmZip™ technology.

PHOTO: JOHN VILLACHICA

## 100% RECYCLED NYLON

Used on our Performance Fit sleeping bags, our soft-to-the-touch 20D nylon is 100% recycled and Global Recycle Standard (GRS) certified.

## NIKWAX HYDROPHOBIC DOWN™

Boasting unrivaled temperature regulation, it dries three times faster, absorbs 90% less water and maintains loft 60 times longer than untreated down.

## TOE-ASIS™ FOOT WARMER

A baffled pocket of insulation helps rapidly warm cold feet inside of our ergonomic footbox.

## SYNERGYLINK™ CONNECTORS

These removable straps integrate your mattress and sleeping bag to minimize heat loss and keep you secure through the night.

## RESPONSIBLE DOWN STANDARD

All of our down is certified to the Responsible Down Standard so that you can sleep easy knowing that the waterfowl have been treated humanely.

## BOX BAFFLED CONSTRUCTION

To maximize thermal efficiency in key areas, we use mesh box baffles to boost loft and eliminate cold spots at the seams of the sleeping bag or quilt.

## ZONED INSULATION

Intentionally placed insulation puts fill exactly where you need it, maximizing thermal properties while reducing weight.

## ERALOFT™ SYNTHETIC INSULATION

Hollow fibers boost heat capabilities while shedding weight. Compressible synthetic insulation repels water and possesses excellent temperature regulation.

## YKK® ANTI-SNAG ZIPPER

Special slider design makes midnight ventilation a breeze by preventing annoying and costly snags on the fabric.

## WARMTH YOU CAN TRUST

Our on-site manikin and cold chamber allow us to design products that will perform in the field. Our chamber and independent testing provide temperature ratings for our products. All hooded sleeping bags above 10 degrees Fahrenheit get rated in accordance to EN (European Norm) 13537 and ISO 23537. Our blankets, quilts and non-hooded sleeping bags are given a suggested comfort and limit range that differs slightly from traditional EN ratings, because these products require extra insulation for your head and integration with a mattress. Use these charts to understand the warmth you can expect from Therm-a-Rest products.

TEMPERATURE RATING IN ACCORDANCE TO EN 13537 / ISO 23537				
COMFORT RANGE	32° F 0° C	TRANSITION RANGE	LIMIT RANGE	-9° F -23° C

RECOMMENDED TEMPERATURES	
COMFORT	14° F -10° C
LIMIT	0° F -18° C

**Comfort Range & Rating:** This is the lowest recommended temperature for a "standard" woman (25 yo, 132 lb (60 kg), 5'2" (157 cm)).

**Transition Range & Limit Rating:** This is the lowest recommended temperature for a "standard" man (25 yo, 154 lb (70 kg) and 5'7" (170 cm)).

**Risk Range & Rating:** The sleeping bag should only be used in this range in an emergency, or by those with ample experience in augmenting a bag's warmth.

## QUILT & BLANKET LOOPS

Most of our bags are equipped with quilt and blanket loops, allowing you to securely attach extra insulation to customize your sleep system.

## BAGS, QUILTS & BLANKETS

# BACKPACKING COMFORT

The result of premium materials and pioneering innovation, our Backpacking Comfort sleeping bags are light, compact and spacious to give unrestricted sleep to unrestricted explorers.

COMFORTABLE  
VERSATILE  
PACKABLE

## BAGS FOR EVERY BODY

We want everybody—all body types and types of sleepers—to have the sleeping bag they want in a size that fits. Proper fit yields more comfort, efficient warmth and all-around better sleep—and better sleep in the outdoors is our mission. That's why we make our sleeping bags in inclusive sizes where each size—Small, Regular, and Long—is available in both traditional and wide sizes.\*

\*Available in select models only. Certain specialist bags are only available in a single width.

## SPREAD OUT, CURL UP, SIDE SLEEP, BLISS OUT. ZIP IT, ZIP IT GOOD!

### Multi-Use Arm Holes

Organize belongings in your tent, reach over and let a little air out of your sleeping pad, play a game of cards, read a book and, of course, reach down and slide up the WarmZip—do it all without leaving the comfort of your sleeping bag with Boost 650's arm holes. Plus, they offer another ventilation option on those warm nights under the stars.

### Patent-Pending WarmZip™

With the center zipper down, the Boost 650 is a spacious and ultra-comfy semi-rectangular sleeping bag. Zipping up transforms it into a traditional mummy bag, pulling the insulation in around the sleeper to add up to 10F/6C of warmth. Space when you want it, warmth when you need it. That's empowered sleep.

### Eco-Conscious

With RDS-certified, humanely sourced down insulation and 100% GRS-certified recycled soft nylon shell and liner fabric that's coated in PFAS-free DWR, backpackers rest easy in the Boost 650 knowing they bought a sleeping bag with a reduced environmental impact.

### Semi-Rectangular Shape

The Boost 650 is wider and more spacious than any bag in its class, providing more freedom to move, twist, turn, side-sleep and get comfortable in the backcountry. If uncompromising comfort is what you want, then the Boost 650 is what you need.

## Boost 650™

Spacious, semi-rectangular bag when you want it, toasty mummy bag when you need it—the lightweight and packable Boost 650 empowers you to truly be comfortable in the backcountry.

- **WarmZip™ Tech:** Patent-pending center zipper design reduces the bag's internal space and tucks insulation around the sleeper to boost warmth by up to 10F/6C.
- **Power to the Sleeper:** Enjoy the spacious freedom of the semi-rectangular bag or the cozy warmth of a mummy bag—pick the shape and temperature that keeps you comfy at night with just a zip.
- **Multi-Use Arm Holes:** Reach the WarmZip, read a book, play cards or simply ventilate—do it all while tucked into your sleeping bag.
- **Puffed Up & Zoned Out:** Ample 650-fill RDS-certified hydrophobic down is allocated to key areas with Zoned Insulation to maximize heat retention and minimize overall weight.
- **Eco-Conscious Product:** Shell and liner are made of GRS-certified 100% recycled, soft-to-the-touch nylon and coated with PFAS-free DWR.
- **Inclusive Sizing:** Each size—Small, Regular, Long—is also available in a Wide size, so you get the bag you want in the fit you need.
- **Additional Features:** YKK anti-snag zippers, cinchable hood, zipper draft tube, puffed draft collar and a two-way entry zipper.
- Comes with compression sack and storage sack

## Parsec 32F/0C

Shaving weight without sacrificing a comfortable fit, the Parsec 32F/0C is bred for those fast and light pursuits that require the best rest possible.

- **High Performance Sustainability:** The liner and shell are made of GRS-certified 100% recycled nylon that has a super soft feel and is lighter than previous versions.
- **Sustainable 800 Fill Nikwax Hydrophobic Down™:** Responsible Down Standard certified, it absorbs 90% less water and dries 3 times faster without using dangerous PFCs.
- **SynergyLink™ Connectors:** Removable ultralight straps secure the bag to a pad to increase the thermal efficiency of your sleep system.
- **No-Fuss Zipper:** YKK anti-snap zipper prevents accidental tears and makes midnight ventilation easy.
- **Refined Fit:** Tested and perfected in our onsite cold chamber, the roomy fit and precise down distribution achieve optimal thermal efficiency and comfort.
- **Toe-asis™ Foot Warmer Pocket:** Ergonomic toe box that rapidly warms cold feet.
- **Additional Features:** Heat-trapping draft collar, full-length zipper draft tube, cinchable hood, external zip pocket, and blanket attachment loops.
- Compression sack and storage sack included.

## Hyperion™ 32F/0C

For objectives that demand a light pack and a good night's sleep, the Hyperion provides peak performance for uncompromising adventurers.

- **Ultralight:** One of the lightest pieces in its class, the Hyperion sets a new standard for high-performance outdoor equipment.
- **900 Fill Nikwax Hydrophobic Down™:** Responsible Down Standard certified, it absorbs 90% less water and dries 3x faster without using dangerous PFCs for better performance in wet weather.
- **Unrivaled Packability:** Lightweight materials and precise design allow for a smaller packed size than ever before.
- **Box Baffled Construction:** Uses mesh walls to maximize loft and minimize cold spots.
- **SynergyLink™ Connectors:** Integrate the bag with a pad for optimal efficiency and comfort; removable for versatility.
- **Zoned Insulation:** Maximizes warmth and saves weight by intentionally placing fill where you need it most.
- **Additional Features:** Heat-trapping draft collar, zipper draft tube and cinchable hood.
- Compression sack and storage sack included.

## Hyperion™ 20F/-6C

Defy the cold and rest better while moving unencumbered through the mountains.

- **Ultralight:** One of the lightest pieces in its class, the Hyperion sets a new standard for high-performance outdoor equipment.
- **900 Fill Nikwax Hydrophobic Down™:** Absorbs 90% less water and dries 3x faster without using dangerous PFCs for better performance in wet weather.
- **Unrivaled Packability:** Lightweight materials and precise design allow for a smaller packed size than ever before.
- **Box Baffled Construction:** Uses mesh walls to maximize loft and minimize cold spots.
- **SynergyLink™ Connectors:** Integrate the bag with a mattress for optimal efficiency and comfort; removable for versatility.
- **Zoned Insulation:** Maximizes warmth and saves weight by intentionally placing fill where you need it most.
- **Additional Features:** Heat-trapping draft collar, zipper draft tube and cinchable hood.
- Compression sack and storage sack included.

# THOUGHTFULLY DESIGNED. METICULOUSLY TESTED.

In the modern market, it can be hard to differentiate one piece of gear from the next. The lines begin to blur. However, the companies that rise to the top tend to do so via a clear commitment to their principles.

That's why a Therm-a-Rest product is tested more rigorously, designed and redesigned, measured twice and sent into more labs and down more trails than the competition.

The pursuit of quality is why we invested in a new **R-value tester** for our sleeping pads. It's why we spent hundreds of nights in the mountains with the **WingLock™ valve**. It's why our onsite **cold chamber** and **thermal manikin** are constantly helping us optimize the the warmth efficiency of our sleeping bags and quilts.

We know our gear will help you sleep better because we tested every detail.

R-Value tester

Cold Chamber

## BLANKETS & PONCHOS

# CAMP & COMFORT™

Our versatile, insulated blankets are designed for extra warmth during any adventure.

### Honcho Poncho™ Down

Be iconic, be multi-functional, and elevate performance with hydrophobic down to achieve the ultimate camp comfort with the Honcho Poncho Down.

- **Premium Down Insulation:** RDS-certified 650-Fill Nikwax Hydrophobic Down™ is warmer and lighter than synthetic fill. It is the same down used in some of our best sleeping bags.
- **Refined Fit:** Snap layout and articulated shape maximizes the benefits of a poncho while cutting back on annoying excess fabric that gets in the way when performing tasks like cooking.
- **Compact Packing:** Front pocket doubles as built-in stuff sack for easy and compact on-the-go storage.
- **Thoughtful Features:** Half-length zipper, three-panel fitted hood, quilted pattern, and hanger loop make wearing the Honcho Poncho Down an experience of comfort, functionality, performance and fun.
- **Improved Fabrics:** DWR coated recycled polyester is water resistant, sustainable and more comfortable, without sacrificing durability.

### Honcho Poncho™

The ever-popular insulated adventure poncho that doubles as a stylish and cozy blanket.

- **eraLoft™ Insulation:** Efficient and compressible, our water-resistant synthetic fill uses hollow fibers to reduce weight without sacrificing warmth.
- **Water Resistant:** Offers a wet weather barrier with its water-resistant and breathable shell.
- **Versatile:** Use at camp, at the game or anywhere you want a little warmth and freedom.
- **Handy:** Kangaroo pocket warms hands and top zip pocket stows essentials.
- **Packable:** Packs into its own storage pocket.

## Honcho Poncho™ Kids

In response to popular demand and due to its general awesomeness, the Honcho Poncho now comes in a kids' version.

- **eraLoft™ Insulation:** Efficient and compressible, our water-resistant synthetic fill uses hollow fibers to reduce weight without sacrificing warmth.
- **Water Resistant:** Offers a wet weather barrier with its hood and DWR coated water-resistant, breathable shell.
- **Cozy:** Perfect any time your kiddo needs a little extra warmth (and a great solution for little ones who never seem to want to wear a jacket).
- **Handy:** Kangaroo pocket keeps little hands warm and top zip pocket stows essentials.
- **Shape-Shifting:** Snaps under the arms transform the poncho into a blanket and back again.
- **Packable:** Packs into its own zip storage pocket.
- **One Size:** Fits most 6- to 12-year-olds.

## Juno™ Blanket

Whether you need extra insulation on your lap, around your shoulders, or something to sit on by the campfire, you will find yourself reaching for your Juno blanket again and again.

- **eraLoft™ Insulation:** Efficient and compressible, our water-resistant synthetic fill uses hollow fibers to reduce weight without sacrificing warmth.
- **Compact Comfort:** The smallest Therm-a-Rest blanket in our utility-focused, go anywhere blanket line, the Juno packs small so it can always come along.
- **Next-to-Skin Comfort:** Soft-touch polyester lining.
- **Wear It:** Snaps along one edge allow you to fasten it around your shoulders.
- **Tasteful Design:** Express yourself and your love of the outdoors with the Juno's offering of tasteful colors, patterns, prints and hand-drawn illustrations.

# SHEETS

## WHY SHEETS?

Sheets may sound like they have no business hitting the trail, but for a few extra ounces our Synergy™ Sheets add premium value to any sleep system.

Made of lightweight nylon or brushed polyester, they provide a soft-to-the-touch and breathable surface for a luxurious sleeping experience. Use the coupler sheets to combine two pads for a broad partner-ready sleep surface.

Synergy Sheets also prolong the life of your sleeping pad by keeping dirt off its surface. Unlike your pad, you can simply toss the sheet in the washing machine and be ready for your next trip. Get the most out of your sleep system with the thoughtfully crafted Synergy Sheets.

PHOTO: SAMMY SPENCE

## Synergy™ Sleeping Bag Liner

**Perfects a sleep system with extra warmth, plush comfort and a measure of hygiene.**

- **Comfort Minded:** Lavish stretch-knit fabric and flatlock perimeter seams create a soft “base layer” feel inside your sleeping bag.
- **Added Warmth:** Adds up to 5F/3C of warmth to your sleeping bag or quilt for nights when you need extra protection from the cold.
- **Thoughtfully Shaped:** Designed to fit in your favorite mummy bag but still feel roomy for an untangled sleep.
- **Clean:** Helps prevent dirt and body oils from seeping into your bag, allowing you to wash it less and prolong its life.

Synergy™ Sleeping Bag Liner	
SKU	11405
FITS	Up to 6' 6"
WEIGHT	342 g (12.1 oz)
MADE IN	CHINA

## Synergy™ Lite Sheet

A lightweight solution for improving the next-to-skin comfort of any sleeping pad. Ideal for sleepers using a quilt- or blanket-based sleep system.

- **Ultralight Comfort:** Made of soft and lightweight nylon, a regular size sheet adds premium comfort and just 2 oz (57 g) to a sleep system.
- **Clean:** Promotes a clean sleep system by preventing dirt and body oils from seeping into your sleeping pad, prolonging its lifespan.
- **Machine Washable:** Much easier to wash a sheet than your pad.
- **Flexible Sizing and Fit:** Both sizes are compatible with tapered and rectangular pads.

## Synergy™ Lite Coupler

Combine two mattresses for a luxurious, adventure duo-friendly sleeping surface.

- **Backcountry Ready:** Made of soft and lightweight nylon, this coupler brings a broad and comfy sleeping surface to your remote camp.
- **Clean:** Promotes a clean sleep system by preventing dirt and body oils from seeping into your sleeping pads, prolonging their lifespan.
- **Machine Washable:** Much easier to wash a sheet than your pad.
- **Flexible Sizing and Fit:** Both sizes are compatible with tapered and rectangular pads.

LITE COUPLER

## Synergy™ Luxe Sheet

Closing the gap between home and outdoor comfort, the Luxe Sheet elevates the comfort of any sleep system and adds a measure of hygiene.

- **Sustainable Comfort:** Made of super soft 100% recycled brushed microfiber polyester that is kind to your skin and the earth.
- **Clean:** Promotes a clean sleep system by preventing dirt and body oils from seeping into your sleeping pads, prolonging their lifespan.
- **Machine Washable:** Much easier to wash a sheet than your pad.
- **Flexible Sizing and Fit:** Both sizes are compatible with tapered and rectangular pads.

## Synergy™ Luxe Coupler

Combine two mattresses for a luxurious, adventure duo-friendly sleeping surface.

- **Sustainable Comfort:** Made of super-soft 100% recycled brushed microfiber polyester that is kind to your skin and the earth.
- **Clean:** Helps prevent dirt and body oils from seeping into pad fabrics, which can contribute to delamination.
- **Machine Washable:** Much easier to wash a sheet than your pad.

New shapes and designs make our pillows the perfect addition to any camp.

PHOTO: SCOTT RINCKENBERGER

NEW COLOR

## Compressible Pillow Cinch

Customizable firmness on a compact, environmentally friendly pillow is ideal for on-the-go rest.

- **Customize Comfort:** Cinch cord tightens and loosens the cover to adjust firmness to the right level.
- **Ultra-soft Recycled Fabric:** Rest easy knowing the gentle cover is made from 60% recycled polyester.
- **Upcycled Foam:** Using excess foam from mattress production makes this product both green and comfy.
- **Compressible:** Packs down into itself so you can rest better on-the-go.

## DON'T MAKE COMFORT HARD, MAKE IT A CINCH

/ **Cinch cord** allows for intuitive and on-demand customization of firmness.

/ The **60% recycled polyester cover** is stuffed with **upcycled sleeping pad foam** to achieve sustainable comfort.

/ **Synthetic insulation layer** provides warmth and smooths out lumps for all-night comfort.

/ **Easily packs down small** to provide on-the-go comfort for camp & travel adventures.

/ **Offered in multiple sizes** to meet individual sleep preferences.

# BIKEPACKING TENTS

Building upon our award-winning backpacking tents, these shelters offer the lightweight livability MSR is known for paired with bike-specific features that cyclists need.

## HUBBA HUBBA™ BIKEPACK SERIES

Designed for the adventurous cyclist whether they ride dirt or pavement, the new Hubba Hubba Bikepack series has been meticulously designed for life on two wheels. Thoughtful features that all cyclists will appreciate married with spacious performance make these tents best-in-class.

### MADE FOR THE RIDE

With shorter DAC poles and a stuff sack that integrates seamlessly with nearly any handlebar shape without taking up valuable bar space, riders won't even notice this tent on their bikes.

### SUPER LIVABLE

The true rectangular floor MSR is known for provides exceptional living space, plus extra headroom and larger vestibules for cycling gear. Oversized gear lofts and two clotheslines, inside and out, add additional livable comforts.

### TRUSTED EASE-OF-USE

Strong DAC poles, DuraShield™-coated fly and floors and the perfect blend of mesh and fabric easily handle frequent use and shoulder-season storms.

# BACKPACKING TENTS

Lightweight and ultra-livable 3-season tents designed for backpackers and adventurers who pursue all kinds of activities.

## HUBBA NX™ SERIES

### Hubba™ NX

The ultimate one-person, go-anywhere backpacking tent.

#### LIGHT & RELIABLE

The perfect balance of light and durable fabrics, Strong DAC aluminum tent poles and efficient design, Hubba NX series tents deliver ultralight peace-of-mind.

#### LIVABLE

Unique pole configuration maximizes head and elbow room throughout tent; mesh canopies and adjustable, cross-ventilating rainfly offer optimal airflow and unrestricted views.

#### EASY SETUP & PACKING

Unified hub-and-pole system with color-coded attachments; packs small.

# FREELITE™ SERIES

The FreeLite Series is ultralight without compromising livability – all at a great value for those seeking the best of both worlds. Whether it's a high-mileage weekend in the backcountry, or a two-week thru-hike, these packweight-friendly tents are the ideal choice when going light and being comfortable are both mission-critical.

## ULTRALIGHT PROTECTION

Our lightest semi-freestanding double-wall tents provide full protection without a big weight penalty.

## EASY-ACCESS, LIVABLE INTERIORS

Large doors and durability-enhancing no-curve zippers provide easy access; interiors fit a large, 25°-wide camping pad per occupant; 3p accommodates 20" mattresses.

## VENTILATION

Micromesh canopies offer maximum ventilation and moisture control along with bug-free protection.

## DURABLE PROTECTION

DAC aluminum poles and our DuraShield™ waterproof coating provide reliable, 3-season protection.

## FreeLite™ 1

Our lightest semi-freestanding backpacking tent for one.

## FreeLite™ 2

Two large doors and extra room make this tent perfect for two.

## FreeLite™ 3

Comfortably fits three backpackers, but light enough for two to pack.

FreeLite™ 1

# TINDHEIM™ SERIES

Designed for discerning outdoorspeople who prefer a tunnel tent design, the Tindheim is ready for all kinds of adventures, weather or not. Hitting the trifecta of space, stability and protection from the elements, it will become the tent of choice for many.

## YOUR MOUNTAIN HOME

The spacious interior and vestibule provide plenty of room to hang out while waiting for the rain to pass, and easy-access vents and two-panel door let you customize the ventilation.

## SNUG & DRY

The storm-pitch construction ensures that the inner tent stays dry during setup, even in wet conditions.

## STABLE DESIGN

Carefully chosen features that amp up the Tindheim's reliable stability include the two-hoop design, heavy-duty cord adjusters, 3mm reflective guy lines, grommets for pole adjustments, adjustable cord stake loops and a vestibule zipper buckle.

### FOOTPRINT INCLUDED

# ELIXIR™ SERIES

The most livable performance backpacking tent in its class. The Elixir tent is an ideal option for backpackers seeking easy-to-assemble tents at a great value.

## LIVABLE

Extra-large vestibules, built-in gear lofts, StayDry™ doors, and glow-in-the-dark zippers make these tents ultra-livable. Unique pole geometry optimizes headroom.

## EASY SETUP

Designed with laser-etched, directional pole-end grommets, these freestanding tents feature color-coded poles, clips and webbing for fast and easy setup.

## IDEAL COVERAGE

Mesh and solid fabric panels offer ventilation, warmth and privacy. Adaptable rainfly offers excellent views when you want them.

# MINIMALIST SHELTERS & WINGS

Ultralight and compact shelters designed for gram-counting backpackers, minimalists and thru-hikers.

## THRU-HIKER SERIES

When every gram on your back is amplified by millions of steps over months on the trail, you need the lightest gear possible. Our Thru-Hiker shelters deliver minimalist protection at freakishly low weights to keep you light on your feet.

### ULTRALIGHT

Minimalist designs and ultralight fabrics make saving weight priority number one.

### POLE-LESS SETUP

Designed to pitch with trekking poles for significant weight savings.

### COMPACT

Low-profile designs keeps your pack small.

### Thru-Hiker 70 Wing

Wind and rain protection for 1-3 people that packs up tiny in small backpacks. Compatible with Thru-Hiker Mesh House 1, 2 or 3.

# ALL-SEASON TENTS

Our all-season tents are engineered specifically to handle the harshest conditions on Earth. From high winds and snow loads to frigid temperatures and those “we’re just going to have to camp here” moments, these tents are built super-strong so you can always count on having shelter from the storm.

## ACCESS™ SERIES

Our Access tents let you spend comfortable days in the winter backcountry without hauling around heavy mountaineering tents. Lighter than our mountaineering tents and warmer than our backpacking tents, these strong tents provide skiers, splitboarders and snowshoers with a robust home base for their mountain pursuits.

### STRONG DESIGN

Featuring a swivel pole hub for faster setup, the tents’ central support frame holds up to high winds and heavy snow loads. Virtually unbreakable Easton® Sycrone™ poles further boost durability.

### RELIABLE PROTECTION

Durable fabrics offer full protection and warmth in cold weather and in snow conditions found at tree line.

### LIVABILITY

Rainfly vents reduce condensation, while large vestibules protect gear, freeing up more livable room inside the tent.

## Access™ 1

The best solo tent for winter backcountry trips.

Access™ 1

# REMOTE™ SERIES

Our Remote mountaineering tents are more livable and weather-resistant than other mountaineering tents on the market. Whether you're spending three days or several weeks on the mountain, these expedition-grade, guide-worthy tents deliver the protection you need and the livability you want.

## DURABLE PROTECTION

Virtually indestructible Easton® Syclone™ poles\* are made strong and flexible to resist breaking in severe conditions.

## PROVEN DESIGN

The unique central support frame stands up to extremely high winds and resists snow loading.

## LIVABILITY

Added space, two large doors and a large, hooped vestibule accommodate climbers with bulky winter gear. Gear loops and other livable features add comfort for weeks in harsh conditions.

\* Easton® and Syclone™ trademarks are owned by Easton® Technical Products.

## Remote™ 2

Extreme-protection, multiday mountaineering tent for two.

Remote™ 2	
<b>CAPACITY</b>	2
<b>MIN. WEIGHT</b>	3.02 kg (6 lb 11 oz)

## Front Range™ Ultralight Tarp Shelter

So compact and light, it's hardly noticeable in your pack. The Front Range tarp shelter protects parties of four on giant alpine missions, like spring ski traverses. Supremely versatile—use it as a dining hall—this pack-small, ultra-simple shelter is boosted with our Xtreme Shield™ coating to outlast the competition.

- **Ultralight & Spacious:** Comfortably sleeps four with a 5' 4" peak height for gearing up, at just .74 kg (1 lb 10 oz).
- **Quick Setup:** Floorless tarp sets up quickly with ski or trekking poles; ski straps included for easy assembly.
- **Easy Access:** Zippered door rolls back completely on both sides for sweeping views and easy entry.
- **Versatile:** Light enough to carry as a solo shelter, dining hall, or emergency shelter. Optional Bug/Floor Insert available for wet & buggy terrain.
- **Durable:** Steep canopy sheds snow and water and features Xtreme Shield waterproof coating for long-term durability.
- Accessory pole sold separately.

Front Range™ Ultralight Tarp Shelter

CAPACITY	4
MIN. WEIGHT	0.74 kg (1 lb 10 oz)
FLOOR	7.52 sq m (81 sq ft)

# CAMPING/ FRONTCOUNTRY

Durable and extra-spacious tents that combine backcountry reliability with frontcountry comfort on everything from rafting trips to family campouts.

HABITUDE™ 4

HABITUDE™ 6

## HABITUDE™ SERIES

Parents seeking to pass their love of the outdoors on to their children now have a home base for just that. Built strong, Habitude tents hold up to family adventures and foul weather (no toppling in wind). And their expansive, standing-height interiors keep everyone—even pint-sized explorers—happy and comfortable.

### STANDING-HEIGHT

High ceiling and vertical sidewalls let everyone move about comfortably, lounge and stand up to change. Door pocket allows for wide, easy entry.

### STRONG

Robust fabrics, super-sturdy pole geometry, and smooth-glide YKK stainless steel zippers all endure rough use, little fingers, and challenging environments like sand, wind and rain.

### EASY TO PITCH

Sets up quickly by one person (or one plus a small helper) thanks to hubbed poles, large, color-coded pole clips and a simple design.

### UNPARALLELED LIVABILITY

Integrated porch light for easy night entry; storage pockets for each occupant; lots of hang loops; strategic mesh for airflow and blocking out cold nights; enormous vestibule.

PHOTO: SCOTT RINCKENBERGER

## Habitude™ 4

Strong, roomy, standing-height retreat for adventurous families and groups of four.

Habitude™ 4

<b>CAPACITY</b>	4

## SHELTER ACCESSORIES

Our complete line of repair, maintenance and add-on accessories is designed to improve the function of any tent and enhance the outdoor experience.

### Carbon-Core™ Tent Stakes

- Our lightest full-strength, hard-ground tent stakes
- Carbon fiber core with aluminum outer
- Extremely durable head and aluminum tip
- 5.75 g (0.2 oz), 15 cm (6 in)

#### Kit (4 Stakes)

SKU	02499
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

### Cyclone™ Tent Stakes

- Holds in soft ground
- Ideal for large tarps and wings
- 35 g (1.2 oz), 25 cm (10 in)

#### Kit (4 stakes)

05806
KOREA

### Groundhog™ Tent Stakes

- Tri-beam design
- 7075-series aluminum
- 13 g (0.46 oz), 19 cm (7.5 in)

#### Kit (6 stakes)

#### Bulk

SKU	05807	05885
MADE IN	KOREA	

### Mini-Groundhog™ Tent Stakes

- Lighter version of Groundhog stake
- 7075-series aluminum
- 10 g (0.35 oz), 15 cm (6 in)

#### KIT (6 STAKES)

#### BULK

05808	06621
KOREA	

### Blizzard Tent Stakes

- Broad profile holds well in sand/snow
- 7075-series aluminum
- Can be used as deadman anchor
- 21 g (0.74 oz), 24 cm (9.5 in)

#### Kit (4 stakes)

#### Bulk

SKU	05809	05810

# SAFE WATER STARTS WITH SCIENCE

PHOTO: JULIEN GONTARD

## WHY CHOOSE A PURIFIER? MAXIMUM PROTECTION

As more people visit popular wilderness sites, the risk of viruses increases. Since viruses are too small for microfilters to catch, a quality purifier provides adventurers with a reliable defense. In fact, our most advanced purifiers combat viruses, bacteria and protozoa, sediment, taste and odors, delivering one ultimate tool to do it all.

## OUR WORLD-CLASS RESEARCH, DESIGN & TESTING

Our on-site water lab is staffed with scientists who individually test our devices to ensure greater safety and ease of use.

### Every MSR hollow fiber filter and purifier features:

- **A unique integrity check** that allows the user to easily confirm that, if the device is dropped or frozen, the fibers haven't been damaged and the device is working safely.
- **An end-of-life indicator** stops the filter media from passing water. This clearly identifies that it's time to replace the cartridge without exposing the user to harmful pathogens.
- **Passes NSF Protocol P231** throughout the filter's life. The test confirms microbiological threat removal from a variety of water types, unlike NSF 42 and 53, which aren't suitable tests for backcountry use.

## NSF PROTOCOL P231 & P248 TESTING STANDARDS

Though backcountry water filters and purifiers are unregulated, NSF Protocol P231 and P248 provide scientifically accepted standards for testing them. Every MSR design passes a stringent test when challenged with what's considered worst-case water (extreme levels of microbes, turbidity, etc.)—even at the end of its life. These standards are the best way to prove a device offers protection against real backcountry water types throughout its useful life.

## PURIFICATION

Tested against some of the worst water, our purifiers deliver the viral defense adventurers need in high-risk zones, like popular wilderness areas and developing countries.

MUST  
HAVE

### Guardian™ Gravity Purifier

**State-of-the-art, high-volume water purifier—the only gravity system you may ever need.**

- **Ultimate Two-Stage Protection:** Hollow fiber removes viruses, protozoa, bacteria and microplastics; activated carbon reduces chemicals, tastes and odors.
- **Easy to Fill:** 10L reservoir fills easily at sinks and wild sources. Universal bottle adapter prevents cross-contamination.
- **High-Flow Cartridge:** Advanced engineering creates fast virus-removing gravity system (1L in 2 min).
- **No Backflushing:** Restore flow by simply opening the purge hose to flush and clean the system.
- **Built for Travel:** Rugged, military-grade construction; fits easily in carry-on.

#### Guardian™ Gravity Purifier

SKU	14005
WEIGHT	532 g (18.7 oz)
HEIGHT	32 cm (12.5 in)
MAX DIAMETER	12 cm (4.7 in)
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

MUST  
HAVE

### Guardian™ Purifier

**The world's most advanced backcountry purifier.**

- **Ultimate Protection:** Meets NSF protocol P248 testing standard used by U.S. military for removing viruses, protozoa, bacteria and sediment.
- **Self-Cleaning:** Patent-pending system self-cleans with each stroke, eliminating the need to ever backflush or filter-scrub to maintain flow.
- **Fast, Easy & Long-Lasting:** Purifies 2.5 liters per minute from nearly any source and treats up to 10,000 liters.
- **Rugged Construction:** Stands up to heavy use and extreme environments; hollow fibers withstand freezing.

#### Guardian™ Purifier

SKU	02370
WEIGHT	490 g (17.3 oz)
HEIGHT	21 cm (8.2 in)
MAX DIAMETER	12 cm (4.7 in)
MADE IN	IRELAND

## MICROFILTRATION

From our fast-and-light microfilters to our gravity-powered systems, we apply the latest technologies and rigorous testing to assure you safe water on every adventure.

### Thru-Link™ Inline Microfilter

Inline ease and efficiency for big days, with fast filtering on the go.

- **Two-Stage Filtration:** Fast-flow hollow fiber removes pathogens, particulate & microplastics; activated carbon reduces chemicals, tastes and odors.
- **Fast:** Engineered specifically for inline filtration and high-flow drinking.
- **Universal Fit:** Quick-connects into any hydration reservoir.
- **Proven:** Used by the U.S. military for more than a decade.
- **Safe:** Rugged ultrasonic-welded ABS housing. Meets NSF protocol P231 for removal of bacteria and protozoa.

Thru-Link™ InLine Microfilter	
SKU	13236
WEIGHT	7.1 g (2.5 oz)
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

### TrailShot™ Microfilter

So small there's no excuse to leave it behind on fast-paced, all-day adventures.

- **Pocket-Sized & Light:** 142 g (5 oz) microfilter stashes in a pocket.
- **Drink from the Source:** Drink directly from water sources along the trail and refill multiple vessels.
- **Fast & Easy:** Quick-deploy design & simple squeezing action fills 1-liter bottles in 60 seconds.
- **Safe:** Hollow fiber filter meets NSF protocol P231 for removal of protozoa and bacteria. Treats up to 2,000 liters.

TrailShot™ Microfilter	
SKU	09385
WEIGHT	142 g (5 oz)
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

### HyperFlow™ Microfilter

Our fastest compact pump microfilter.

- **Super-Fast:** Pumps up to 3 liters per minute.
- **Ultralight:** Just 221 g (7.8 oz).
- **Field-Maintainable:** Can be cleaned repeatedly for flow recovery; no tools required for complete disassembly.
- **Adaptable:** Connects directly to Dromedary™ and DromLite™ Bags, Hydromedary™ hydration systems and standard wide-mouth bottles.
- **Safe:** Hollow fiber filter meets NSF protocol P231 for removal of bacteria and protozoa.

HyperFlow™ Microfilter	
SKU	14008

## STORAGE

MSR's water hauling and storage bags are built to endure the rigors of backcountry and expedition travel. Each one is engineered for compact, efficient packing, and all the durability needed to keep this vital resource reliably at your fingertips.

PACKED

### DromLite™ Bags

**Supremely packable water storage bags with the weight savings to match.**

- **Extremely Compact:** High-capacity bag folds down to size of its cap for discreet storage.
- **Light:** Lightweight, durable film construction is perfect for fast-and-light travel.
- **Convenient Attachment:** Makes it easy to hang from packs or trees; set up as a basecamp reservoir or shower station.
- **Durable:** Made with rugged film and RF-welded seams.
- **Safe Drinking:** BPA-free.

DromLite™ Bags

MUST  
HAVE

### Dromedary® Bags

**The world's burliest solution to collapsible backcountry water storage.**

- **Heavy-Duty:** Abrasion-resistant, hydrophobic 1000D fabric withstands freezing, boiling, and the abuse of expedition crews and hardcore adventurers.
- **Food-Grade Lining:** Ensures better tasting water.
- **Redesigned Cap:** Low-profile 3-in-1 cap lets you fill, drink and pour with ease.
- **Convenient Attachment:** Streamlined webbing and strategic grommets for pack attachment and hanging.
- **Safe Drinking:** BPA-free.

# REAL-WORLD PERFORMANCE— IT'S WHAT FUELS US

MSR®  
STOVES

PHOTO: DAN PATITUCCI

# NEW – SWITCH™ STOVE SYSTEM

Introducing the Switch Stove System: the ultimate all-in-one stove system for price-conscious backpackers seeking MSR performance and reliability. Eclipsing competitors in its class with unmatched versatility, this innovative system lets you 'switch' to your own cookware with a quick flip of the pot supports. Learn more on pages 92-93.

## SMALL PACKED SIZE

The entire Switch Stove system fits inside the pot with a 4-oz fuel canister for easy packing (canister not included).

## FLIP-OUT POT SUPPORTS

Easy flip-out pot supports allow the stove to go from Switch Pot mode to supporting your cookware of choice.

# STOVE TECH: A LEGACY OF INNOVATION

Every MSR® stove ever built has come to fruition with a singular purpose—to solve real world problems. Our forward-thinking innovations have led the industry and broken down barriers to what could be accomplished outdoors. Whether your goal is reaching the world's farthest corners or laying out a feast for friends on a weekend close to home, you can trust MSR to lead the way.

## **Problem:** High Altitude Dehydration

### **MSR Innovation:** Remote Burner Stoves

Introduced in 1973, the Model 9 stove was the first to separate burner and fuel source, allowing the use of a windscreen to significantly boost all-condition performance. In addition, the remotely pressurized fuel tank, crude, multi-fuel capabilities and a myriad of overall design improvements boosted function and efficiency far beyond anything else available. It remains the basis of all liquid fuel designs to this day.

## **Problem:** Fuel Availability/Clogged Stoves

### **MSR Innovation:** Fuel-Specific Shaker Jets

The jet, where pressurized fuel escapes the stove to create a flame, was the Achilles heel of early liquid fuel stoves, especially with unpredictable international fuel sources. Our two-fold solution began with the first field-replaceable jets, sized to match the viscosity and carbon-collecting tendencies of fuels ranging from highly refined white gas to rough-burning diesel fuels. Adding a floating pin inside the jet came next, allowing the stove's jet to be purged of obstructions with a simple shake.

## **Problem:** Reliability

### **MSR Innovation:** Field-Serviceable Stoves

Reliability is the cornerstone of every MSR product, but we also know that people lean hard on our gear in remote places. If something breaks north of the Arctic Circle, it needs to get fixed. That's why we've engineered our liquid-fuel stoves to be virtually resurrect-able from the ground up, with a simple, all-in-one tool and a basic maintenance kit. From cleaning a fuel line in the field to a complete refurbishment on the workbench at home, MSR stoves are built like no others, for generations of reliable performance.

**Problem:** Stove Efficiency in Windy Conditions

**MSR Innovation:** Primary Air Combustion

We didn't invent primary air combustion, but we were first to bring it into the backcountry. Typical combustion requires oxygen (secondary air) around and above the flame, as well as from below (primary air). 100% primary air combustion draws all the air needed from below, allowing a completely enclosed flame, significantly boosting the efficiency of combustion. The clear benefits of needing less fuel overall are amplified by the all-condition reliability of a flame impervious to wind, making our Reactor® and WindBurner® stove systems unrivaled in real-world performance.

**Problem:** Excess Fuel Demands/Heavy Packs

**MSR Innovation:** Hyper-Efficient Cookware

The efficiency of MSR stove systems would not be possible without cookware engineered to make the most of it. Fully enclosing the burner, our advanced Reactor and WindBurner cook pots are built to not only block wind, but also to maximize heat transfer by trapping hot combustion gases around the pot for longer, and boosting the surface area where that transfer takes place. Like the rest of our cookware, we do it all with the best materials for the job at hand to ensure you can tune your kit to the priorities of any trip.

**Problem:** Consistent Canister Performance

**MSR Innovation:** Pressure-Regulated Stoves

Canister stoves rely on the low boiling point of fuel to generate pressure through vaporization inside of the canister. However, internal canister pressure can range from 70 psi in summer to just a few psi in cold temps, with low fuel levels, or during long stove runs. We've optimized our pressure-regulated stoves to operate optimally at low pressures, assuring consistent performance in the widest range of temperatures possible and minimizing wasted fuel.

## CONVENTIONAL CANISTER STOVES

Delivering big performance in light and compact designs, MSR canister stoves are engineered to make wilderness cooking quick and easy. Each stove is designed to satisfy a unique demand—from ultralight, fast-boiling performance to precision simmering capabilities.

COOK

### PocketRocket® Deluxe

Ultralight and fully featured for a consistently fast and excellent cooking experience.

- **Pressure Regulator:** Maintains stove's fast boil times even in cold weather and with low fuel.
- **Push-Start Ignition:** Fast, reliable piezo lighting; spark igniter is protected inside burner head for maximum durability.
- **Ultralight & Fast:** Just 83 g (2.9 oz); boils 1 liter of water in 3:20 minutes.
- **Broad Burner:** Improves wind resistance and combines with simmer control for excellent cooking versatility.

### LowDown™ Remote Stove Adapter

More stability, more versatility for canister stoves.

- **Stable:** Low center of gravity; use large pots and cook on uneven ground with confidence.
- **Remote Control:** Off-stove flame control keeps hands away from burner and hot cookware.
- **Universal:** Works with all current MSR canister-mounted stoves and stove systems.
- **Packable:** Compact, folding design weighs just 176 g (6.2 oz).

#### PocketRocket® Deluxe

BOIL

### PocketRocket® 2

Our lightest and most compact, fast-boiling stove for serious gram-counters.

- **Ultralight:** At just 73 g (2.6 oz), this easy-to-use stove keeps pack weight to the absolute minimum.
- **Ultra-Compact:** Folding pot supports pack exceptionally small; stove with case fits inside MSR Titan™ Cup.
- **Fast:** Boils 1 liter of water in just 3.5 minutes.
- **Strong:** Robust pot supports accommodate a wide range of pot sizes.
- **Includes:** Ultralight hard-shell carry case.

SIMMER

### WindPro™ II

Excellent remote-canister stability for ultra-efficient cold weather performance.

- **Inverted Liquid-Feed:** Inverting canister allows stove to run on liquid fuel for increased cold-weather and low-fuel performance.
- **Remote Burner:** Added stability for use with large pots (up to 10" diameter).
- **Compatible:** Design allows the use of a windscreen; compatible with bake ovens.
- **Lightweight:** Weighs just 187 g (6.6 oz).

## STOVE KITS

Pairing high performance with pack-and-go convenience, our stove kits make the ultimate cook-and-eat solutions for backpacking duos and soloists moving fast.

### PocketRocket® Deluxe Stove Kit

Our premium cook-and-eat kit takes ultralight adventures up a notch with deluxe features.

- **Premium Kit:** Pressure-regulated, push-start PocketRocket Deluxe stove + our ultralight Trail Mini Duo Cook Set.
- **Light & Compact:** Nested design slips easily into small packs and weighs just 371 g (13.1 oz).
- **Fast-Boiling:** Boils 1 liter in 3:20 minutes, maintaining fast boil times even in cold weather and with low fuel.
- **Integrated Piezo Igniter:** Fast, easy, reliable ignition.
- **Includes:** PocketRocket® Deluxe stove with stuff sack; 1.2L hard-anodized aluminum pot with insulated grip; bowl;\* strainer lid;\* ultralight pot handle; kit stuff sack; room to nest 4- or 8-oz IsoPro™ fuel.

\*BPA-free

#### PocketRocket® Deluxe Stove Kit

SKU	14106
MADE IN	KOREA

### PocketRocket® 2 Mini Stove Kit

Ultra-compact complete cook-and-eat solution for one, featuring our smallest and lightest stove.

- **Ultra-Compact:** Nested design slips easily into smaller day packs; makes a great back-up cook solution.
- **Ultralight:** Whole kit weighs a mere 278 g (9.8 oz), keeping pack weight to an absolute minimum.
- **Fast-Boiling:** PocketRocket 2 stove boils 1 liter in 3.5 minutes.
- **Versatile:** Pot's insulated grip makes it safe to hold when hot.
- **Includes:** PocketRocket 2 stove, .75L hard-anodized aluminum pot, bowl,\* clear lid\* with straining port, ultralight pot lifter.

\*BPA free

#### PocketRocket® 2 Mini Stove Kit

SKU	14050
MADE IN	KOREA

### PocketRocket® Stove Kit

Complete cook-and-eat kit for two, featuring the original, iconic PocketRocket stove.

- **Fast-Boiling:** Original PocketRocket stove boils 1 liter in 3.5 minutes.
- **Lightweight:** Whole kit weighs only 732 g (25.8 oz), making it great for backpacking.
- **Compact:** Nested design packs easily and discreetly.
- **Includes:** PocketRocket stove, 2.0L hard-anodized aluminum pot, (2) DeepDish™ Bowls,\* (2) 12.5 oz Double-Wall Insulated Mugs,\* clear strainer lid,\* (2) folding sporks.\*

\*BPA-free

## SWITCH STOVE SYSTEM

The Switch Stove System is an all-in-one, versatile choice that makes boiling water and cooking easy. It's ready-to-go out of the box with a unique hemispherical pot, but also allows users to bring their cookware of choice.

MUST  
HAVE

NEW

### Switch™ Stove System

The most versatile, high-performance system stove in its class.

- **Versatile:** Flip-out pot supports allow users to use the integrated Switch pot or bring their preferred pot (not to exceed 8 in / 20.3 cm diameter; 5 in / 12.7 cm height, 8 lb / 3.6 kg weight).
- **High-Performance:** The pressure regulator provides good fuel efficiency, even in cold conditions and higher altitudes, and improves flame control for more precision cooking.
- **Hemispherical Pot:** Patent-pending round-bottom Switch pot heats faster and more evenly than conventional flat-bottom pots.
- **Stable Pot Support:** Ring stand for integrated pot to rest on makes placing the pot on the stove easy and intuitive.
- **Easy to Light:** Built-in piezo ignitor makes lighting the stove simple and fast.
- **Includes:** Switch™ stove; Switch™ pot with lid and cork cozy; plastic nesting bowl; canister stand; and PackTowl® cleaning cloth. Room to nest a 4 oz (110 g) IsoPro fuel canister.

#### Switch™ Stove System

SKU 13844

MADE IN STOVE: KOREA / POT: CHINA

## VERSATILE BY DESIGN

### THE STOVE FOR EVERYONE

The versatility of the Switch stove comes from the unique hemispherical pot and the multi-functional pot supports.

With a simple flip of the pot supports, this solo cook system instantly becomes an adaptable stove that can serve more campers or become a gourmet chef's backcountry kitchen; no accessories needed. In non-system pot mode, the Switch can accommodate a variety of cookware from larger pots that boil pasta to non-stick skillet for your morning eggs.

In 'system mode', the ring stand supports the Switch pot. Its patent-pending hemispherical bottom is wrapped evenly by the flame, heating quickly and evenly without a heat exchanger. As an everything-included solo system with a built-in piezo ignitor and cup, it's lightweight and compact.

### PRESSURE-REGULATED PERFORMANCE

Very few stoves in this class include a pressure regulator, making the Switch the most reliable performance option for beginner to intermediate adventurers. The pressure regulator provides consistent output in colder temperatures and at altitude where the competition struggles, for true three-season performance. It also maximizes fuel efficiency, so users get the most out of each canister.

### PREMIUM CORK

The premium, removable cork cozy is a more sustainable option with many performance benefits. The cork is burn resistant and won't melt upon accidental contact with heat. It also provides better grip when wet than other materials, minimizing the chance for spills.

## WINDBURNER® STOVE SYSTEMS

The WindBurner stove's windproof and pressure-regulated design allows it to boil water fast in weather that shuts other stoves down, while unique stove system features add cook-and-eat convenience.

MUST  
HAVE

# WHY **WINDBURNER™** ?

## BOILS UP TO **4X FASTER** THAN THE COMPETITORS' STOVES IN WINDY & COLDER CONDITIONS

(12 MPH / 40°F)

### PRESSURE REGULATOR

Ensures constant performance even as canister pressure drops in colder temps or with low fuel.

### WINDPROOF

Radiant burner and 100% primary air combustion allow flame to be shielded from the wind, significantly reducing heat loss for faster boil times using less fuel.

## COOKWARE FOR EVERY KIND OF TRIP

### FAST WATER BOILERS

Powerful heat exchanger maximizes heat transfer to the pot for rapid boil times.

### NONSTICK COOKING POTS

A heat-capturing ring blocks the wind while dispersing heat evenly for cooking versatility.

## MUST HAVE

### WindBurner® Ceramic Skillet

Premium nonstick performance for stir-fry, pancakes or gourmet cooking.

- Hard-anodized aluminum skillet with Fusion® ceramic nonstick surface
- Folding Talon™ pot handle
- Nests outside of WindBurner Stock Pot

### WindBurner® Sauce Pot

Ceramic-coated 2.5L pot for our WindBurner stove systems.

- 2.5L Sauce Pot serves 2-4 people
- Durable Fusion® ceramic coating makes meal clean-up fast and easy
- Features enclosed, heat-capturing ring

### WindBurner® Stock Pot

Fast-boiling 4.5L pot for our WindBurner stove systems.

- Our largest capacity pot for groups & volume cooking
- Features high-performance heat exchanger for our fastest boil times
- Self-centering pot fits WindBurner stoves' deep lip for increased stability

# WHY REACTOR®?

## UNRIVALED IN REAL BACKCOUNTRY CONDITIONS

### WINDPROOF

100% primary air combustion means the stove draws the oxygen it needs through ports near its burner, allowing the flame to be completely enclosed and protected from the wind.

### PRESSURE-REGULATED

High-quality regulator ensures consistent performance at altitude, in colder weather or with a nearly empty canister.

### SUPEREFFICIENT COOKWARE

Heat exchangers make the most efficient use of the stove's output while providing wind protection, resulting in extremely fast boil times.

### RADIANT BURNER POWER

Provides greater performance and efficiency than conventional burners—and significantly more wind resistance.

### REACTOR 1.7L STOVE SYSTEM'S UNRIVALED BOIL TIMES:

WIND	BOIL TIME (min/1L)		FUEL USED (g/1L)
0 MPH	REACTOR	3:00 min	10 g
	COMPETITION*	4:30 min	09 g
8 MPH	REACTOR	3:30 min	12 g
	COMPETITION*	8:15 min	19 g
12 MPH	REACTOR	3:45 min	12 g
	COMPETITION*	20:00 min	44 g

\*Leading competitor's pressure-regulated stove system.

### Reactor® 1.0L Pot

A standalone Reactor pot that serves 2-3 people.

- Ideal for 2-3 people
- Sized perfectly for alpine pursuits and snow-melting duties

Reactor® 1.7L Pot	
SKU	14271
MADE IN	THAILAND

### Reactor® 2.5L Pot

Our largest-volume Reactor pot.

- Great for groups of 2-4 people
- Wider pot meets bigger snow-melting and water-boiling demands

Reactor® 2.5L Pot	
SKU	02166
MADE IN	THAILAND

## LIQUID FUEL STOVES

MSR liquid fuel stoves are the epitome of reliability. These time-tested machines remain the mainstay of backpackers, mountain guides and outdoor chefs for their four-season performance, large-pot stability, multi-fuel capabilities and dependable engineering.

BOIL

### XGK™ EX

The most reliable multi-fuel powerhouse ever built.

- **Multi-Fuel:** Burns white gas, kerosene, diesel, jet fuel, aviation gas and unleaded auto gas.
- **Unmatched Reliability:** Shaker Jet™ technology and unique fuel delivery ensure a clean burn regardless of fuel.
- **Rugged Build:** Engineered for exceptional stability and lasting durability.
- **Fast:** Boils water in as little as 2.8 minutes.

XGK™ EX

SKU 14245

MADE IN USA

MUST HAVE

SIMMER

### Dragonfly®

Unbeatable reliability and versatility for a wide range of meals and group sizes.

- **Unrivaled Flame Control:** Dual-valve technology allows precision boil-to-simmer control.
- **Extra Wide Pot Supports:** Easily holds up to 10" diameter MSR pots or fry pans.
- **Multi-Fuel:** Burns white gas, kerosene, unleaded auto fuel, diesel and jet fuel.
- **Efficient:** Suspended burner cup produces a strong burn while reducing heat lost to the ground.
- **Field Maintainable:** Shaker Jet™ technology allows easy cleaning and field maintenance.

COOK

### WhisperLite™ Universal

World's first optimal performance hybrid-fuel stove—the most effective one ever made.

- **Hybrid Fuel:** Burns canister fuel, white gas, kerosene and unleaded gasoline.
- **Canister Liquid Feed:** Inverting canister allows stove to run on liquid fuel for increased cold-weather and low-fuel performance.
- **Groundbreaking Performance:** AirControl™ technology maximizes the fuel and air mixture with each fuel type.
- **Light and Sturdy:** Lightweight stainless steel legs offer excellent stability.
- **Easy Maintenance:** Extremely easy to swap jets and perform periodic maintenance.

## FUEL

MSR's fuels are formulated to the absolute highest standards. Free of additives that cause clogs, our performance-boosting blends burn cleaner and deliver better cold weather performance than any other fuels on the market.

### MSR® Fuel Bottles

Designed to work with all MSR liquid-fuel stoves.

- **Airtight:** Allows fuel to be stored longer by preventing air to enter and degrade fuel.
- **Rugged:** Made from a single piece of impact-extruded aluminum to prevent leaks.
- **Child-Proof:** Push-down-and-turn child-resistant cap.

	MSR® Fuel Bottles		
SIZE	325 ml (11 oz)	590 ml (20 oz)	887 ml (30 oz)
SKU	09425	09426	09427
MADE IN	CHINA		

### IsoPro™

Our premium, clean-burning, performance-boosting fuel blend.

- **Three Sizes:** 4, 8 and 16 oz canisters meet the demands of any stove or trip; 4 oz canister fits inside the 1.0 L Reactor® and WindBurner® Stove Systems.
- **Superior Performance:** 80/20 blend of isobutane and propane delivers superior cold-weather performance and more consistent output over the life of the canister.
- **Clean-Burning:** Zero-maintenance combustion.
- **Fuel Gauge:** Built-in float gauge determines how much fuel is left (4 oz and 8 oz canisters).

## Universal Canister Stand

- Super-stable wide base
- Adjustable universal fit system ensures worldwide canister compatibility

Universal Canister Stand	
SKU	05346
MADE IN	TAIWAN

## Trillium™ Stove Base

- Lightweight portable platform for resting any MSR stove on for added stability
- MSR Dragonfly® stove locks securely with the Trillium Stove Base

Trillium™ Stove Base	
SKU	11810
MADE IN	USA

## Solid Heat Reflector with Windscreen

- Reflector speeds boil times, reduces fuel use
- Windscreen improves stove performance
- For use with MSR liquid fuel stoves or WindPro™ canister stove

Solid Heat Reflector with Windscreen	
SKU	11812
MADE IN	USA

## MSR® Fuel Pumps

- Lightest, most reliable pumps on the market
- Fiberglass-reinforced polymer design doubles pump strength
- Innovative valve for superior flame control; easy-to-maintain seal
- Works with all MSR liquid fuel stoves

	Standard	Dragonfly®
SKU	11794	11796
MADE IN	USA	

## Arctic Fuel Pump

- Designed specifically for extreme arctic temperatures
- Seals and pump cup remain flexible to prevent leaks
- Do not use in temperatures above freezing

Arctic Fuel Pump	
SKU	09962
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

## Expedition Fuel Bottle Cap

- Compatible with all MSR liquid fuel bottles

Expedition Fuel Bottle Cap	
SKU	29129
MADE IN	CANADA

## Child-Resistant Fuel Bottle Cap

- “Push-down-and-turn” cap
- Compatible with MSR liquid fuel bottles made after 1981
- Meets U.S. CFR1700 and Health Canada requirements

Child-Resistant Fuel Bottle Cap	
SKU	29133
MADE IN	CHINA

## Annual Maintenance Kit

- Services every MSR stove (except stove systems) and fuel pump
- **Includes:** O-rings, jet-and-cable tool, and lubricant for annual preventive maintenance

Annual Maintenance Kit	
SKU	11814
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

## Expedition Service Kits

- Maintenance and repair kits for every MSR liquid-fuel stove and pump
- **Includes:** All components needed to replace worn or damaged stove and pump parts

# TITAN™ TITANIUM COOKWARE

Long a gram-counter favorite, the ultralight Titan collection was refreshed in 2024 to be more functional, packable and reliable than ever before. As more adventurers turn to minimalist gear to decrease pack weight, the updated Titan line is ready to become their cookware of choice.

## KEY FEATURES:

### Fine-Tuned Sizes

900 and 1400mL kettle options cater to the preferred volume needs of thru-hikers and ultralighters who tend to only boil water or melt snow.

### Better Kettles

Updated silicone-coated folding handles are more comfortable to hold, an improved spout makes precision pouring easier, and the snug-fit lid has a new knob design.

### Superior Packability

Nearly everything nests together with a stove and/or fuel canister so users can easily choose their preferred combinations. See all nesting options on pg. 105.

### Easy Water Measurements

Kettles and cup feature interior graduation lines for fast and easy volume measuring for dehydrated meals and drinks.

## SUPER UTENSILS

A dual-purpose spork and long spoon, perfect for getting into the corners of meal pouches, are designed with gram-counters in mind who need less weight and simple, durable performance.

## IMPROVED CUP

The updated Titan Cup has the same refreshed silicone-coated folding handles as the kettles, along with a silicone lip saver band to protect from hot metal.

## ULTRALIGHT DOUBLE WALL MUG

The Double Wall Mug is incredibly light and features a sipping lid to keep drinks warmer longer in the backcountry.

# HOW TO CHOOSE MSR BINDINGS

## PARAGLIDE™ TRAIL SERIES

**Benefit:** Intuitive to use, extremely comfortable and made from high-quality materials.

**Made for:** Entry-level snowshoers who want equipment that offers confidence; more advanced snowshoers who want lighter weight shoes for less technical terrain, and utility users in cold climates who need snowshoes in their everyday lives.

 **Terrain:** Rolling, gentle

## PARADIGM™ EXPLORE SERIES

**Benefit:** Secure performance, lightweight comfort, easy use and repairability.

**Made for:** Intermediate to advanced level snowshoers who are exploring moderate to technical terrain; beginner snowshoers who know they want to invest in shoes they can grow into over time.

 **Terrain:** Variable

## PARAGON™ ASCENT SERIES

**Benefit:** High-precision foot control for safe travel on steep ascents, challenging sidehills and icy conditions; reliable durability and field repairability.

**Made for:** Serious winter adventurers who demand superior snowshoes for safe and successful travel in extreme and remote environments.

 **Terrain:** Aggressive, steep

# MEET THE EXPANDED QUICKDRAW™ FAMILY

## THE QUICKDRAW™ FILTER

The small-but-mighty filter at the heart of every QuickDraw filter system that delivers the features you didn't know you needed with the performance you do.

- **Flow Rate:** 3L/m with squeeze pressure & 1.75L/m with a gravity feed.
- **Safe:** Meets all EPA & NSF standards for removal of bacteria and protozoa.

PHOTO: JAMES BARKMAN

## QUICKDRAW 3L GRAVITY

The QuickDraw 3L Gravity is faster to deploy and easier to use than any other gravity filter system. With a higher capacity, more accessories, and the same forward-thinking QuickDraw modular design, it has the highest multi-use potential of any QuickDraw filter system.

### A Better Strap

When attached, the TPE molded strap is flexible and sturdy for hanging and carrying and will never be packed up wet. When removed, the minimalist attachment posts are unnoticeable when using in squeeze mode.

### Premium Reservoir

Proprietary tri-layer construction technique is guaranteed free of plastic taste and delivers expedition-worthy durability.

### Direct-to-Reservoir Connection

Direct connection to Dirty reservoir eliminates air blockage for increased flow speed.

### ConnectCap™

ConnectCap has hose attachment point and threads that screw directly to 28mm bottles and Platy Bottles.

### CPC Connector

CPC connector securely clicks into Bottle Adapter, a Big Zip™ Hydration Reservoir or any female CPC fitting.

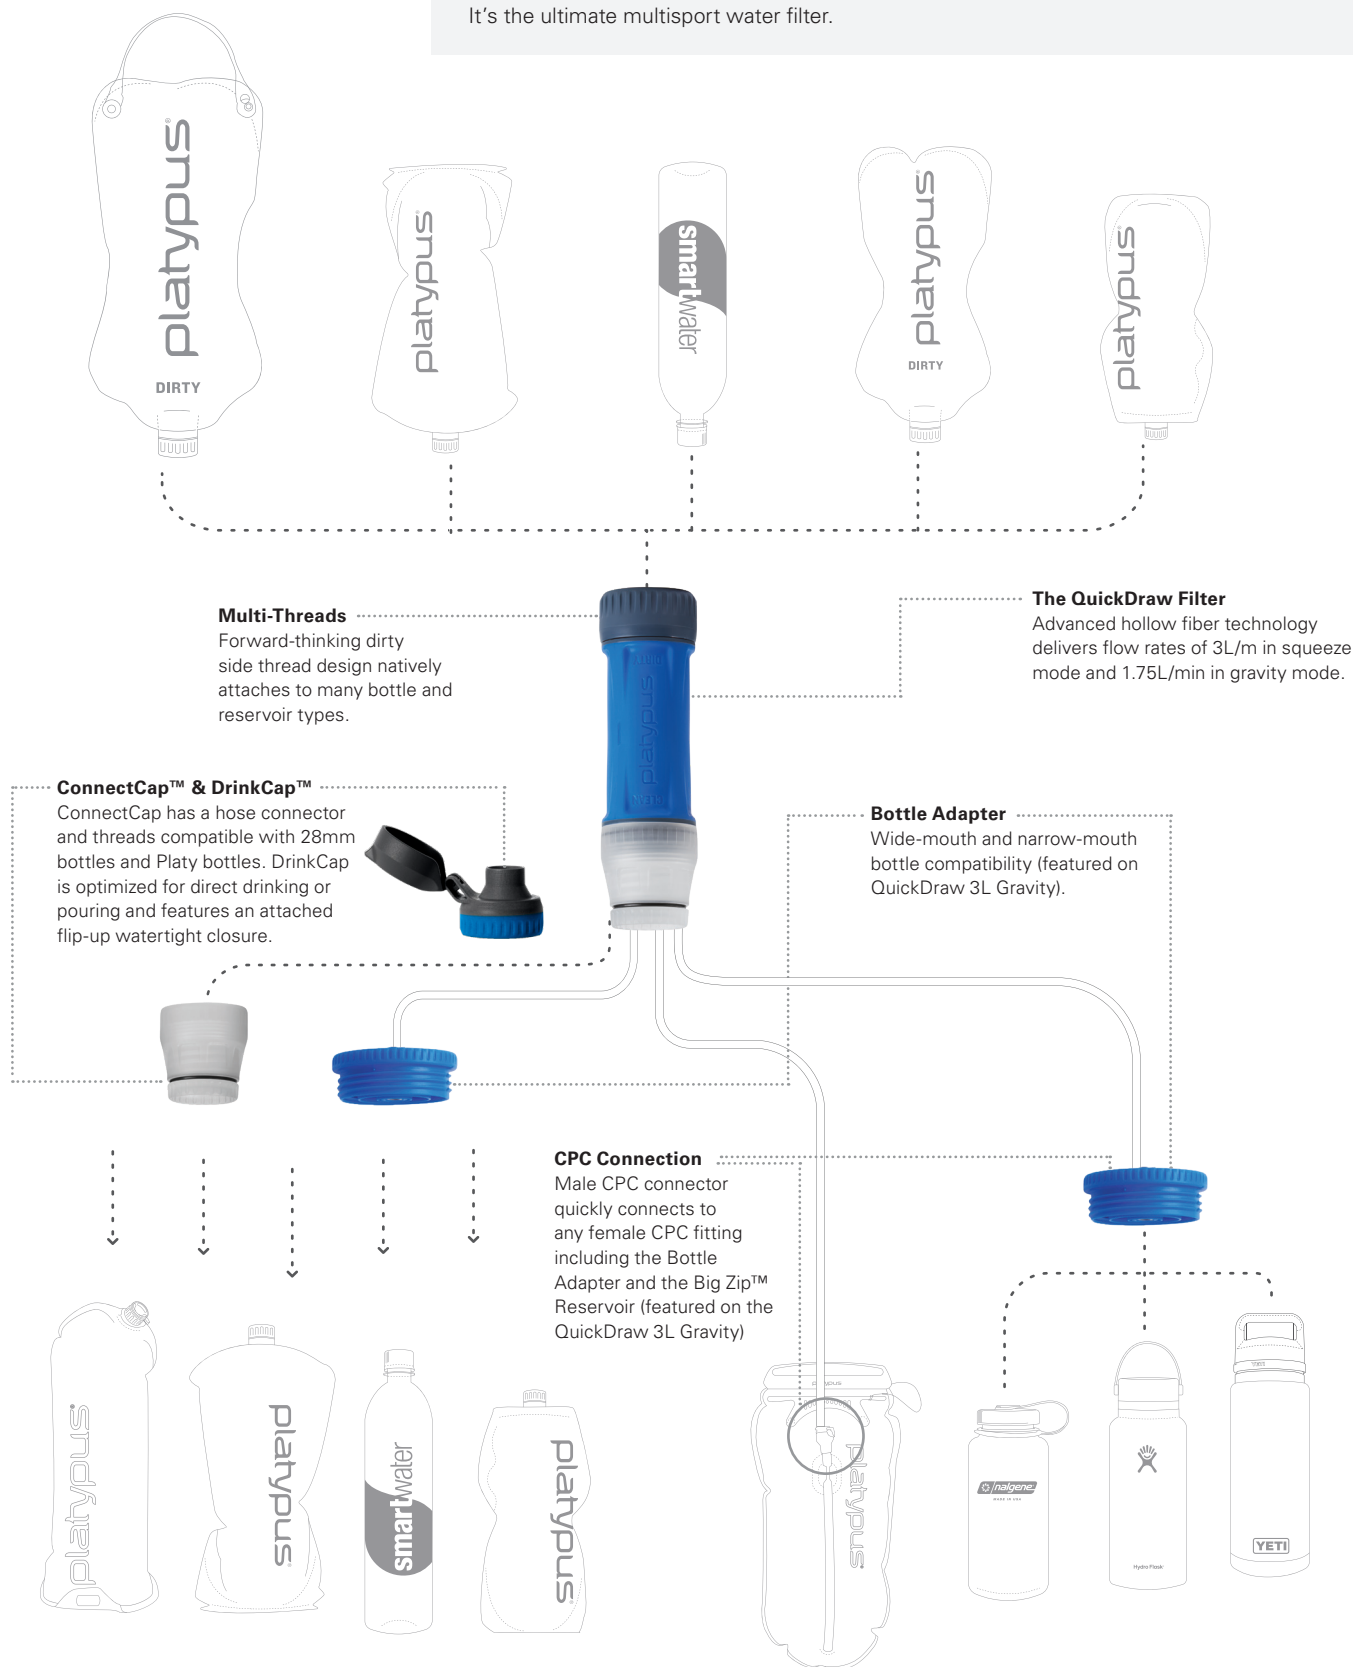

### Bottle Adapter

Provides leak-free compatibility with a wide range of bottles for use as clean water storage.

## ONE FILTER TO DO IT ALL

Build a system that meets your needs with the QuickDraw's seamless compatibility with three different QuickDraw reservoirs, Platy bottles, and all 28mm plastic bottles—like smartwater®. It's the ultimate multisport water filter.

# FILTRATION INDUSTRY- LEADING FILTRATION

At Platypus, we conduct taste testing at our water lab and rigorously test each filter before it goes out the door. The result? High-quality, taste-free filtration you can count on.

## QuickDraw™ Filter

**Compact, fast-flowing and compatible with a wide variety of bottles and reservoirs, the QuickDraw is the best water filter for your personalized filtration system.**

Designed to be the high-performance core of personalized water filter systems, the QuickDraw provides class-leading filtration rates in an ultralight and compact profile, plus two cleaning methods and a simple integrity check.

- **Combine & Customize:** Thread design on the dirty side and the ConnectCap™ provide seamless compatibility with a wide variety of bottles and reservoirs to allow your system to be customized.
- **Fast Flowing:** 3 liters per minute with squeeze pressure and 1.75 liters per minute in a gravity setup.
- **Ultralight:** Weighing just 2.4 oz (69 g), it's a perfect foundation for a customized ultralight water filter system.
- **Easy Cleaning:** Two simple cleaning methods—shake-to-clean and a tool-free backflush—remove particulates and maintain fast flow rates.
- **Safe & Effective:** Each filter is individually tested to ensure it meets all EPA & NSF guidelines for the removal of 99.9999% of bacteria and 99.9% of protozoa.\*
- **Integrity Test:** Determine if your filter has been compromised from a fall or freezing by performing a simple integrity test.
- Comes with dirty side cap, DrinkCap and ConnectCap™.

\*Includes Giardia, Cryptosporidium, E. coli, Salmonella and Cholera.

# THE QUICKDRAW™ DIFFERENCE

In every way, it's just a better filtering experience with a QuickDraw filter system. Expertly designed and built from the very best materials, every QuickDraw system gives modern adventurers the performance they need—and the features they didn't know they wanted—in an ultralight water filter.

"It's so small that it can fit in a hipbelt pocket, and it's the most efficient filtration system I've ever used."

—  
**OUTSIDE MAGAZINE  
EDITOR'S CHOICE AWARD**

## PRODUCT FEATURES

### MULTI-THREAD FLEXIBILITY

With the filter's I/O dirty side threads, a ConnectCap and a Bottle Adapter, there's limitless potential in how you can interchange bottles and reservoirs to discover your perfect system.

### DESIGNED BY BACKPACKERS FOR BACKPACKERS

We dialed in small details, like the grippy and hydrophobic TPE overmold that doesn't pick up dirt and caps that seal both sides for leak-free storage, to give users a great experience in every aspect.

### TWO CLEANING METHODS

Shake-to-clean and tool-free backflush methods effectively maintain fast flow rates throughout a trip and into the next one.

### TESTED FOR REAL WORLD USE

We use the rigorous P231 testing protocol—a 10-day process subjecting the filter to clear and worst-case water—to ensure its safety and long-lasting performance.

### INTEGRITY CHECK

A simple integrity check that can be easily performed on-trail adds backcountry safety by allowing users to know if their filter has been compromised from being dropped or frozen.

### INDUSTRY-LEADING RESERVOIRS

Designed for fast and easy filling, built for rugged use and guaranteed free of plastic taste, the QuickDraw reservoirs are in a league of their own. It's the Platy standard.

## FILTRATION

### QuickDraw™ 1L Filter System

Rigorously tested and made of premium quality materials, the QuickDraw offers the best user experience of any filter in its class.

With a premium 1L reservoir, a fast flow rate and an ultralight design that allows for seamless adaptability to numerous dirty reservoirs, the QuickDraw is the best personal squeeze filter system available.

- **Fast Flowing:** 3 liters per minute with squeeze pressure prevents extended stops and keeps you moving.
- **Ultralight:** The whole system weighs just 3.3 oz (95 g), delivering advanced water filtration with a minimal weight tax.
- **Easy Cleaning:** Two simple cleaning methods—shake-to-clean and a tool-free backflush—remove particulates and maintain fast flow rates.
- **Combine & Customize:** Thread design on the dirty side provides seamless compatibility with a wide variety of dirty reservoirs to allow your system to be customized.
- **Safe & Effective:** Each filter is individually tested to ensure it meets all EPA & NSF guidelines for the removal of 99.9999% of bacteria and 99.9% of protozoa.\*
- **Integrity Test:** Determine if your filter has been compromised from a fall or freezing by performing a simple integrity test.
- Comes with 1L QuickDraw reservoir, dirty side cap, DrinkCap and ConnectCap™.

\*Includes Giardia, Cryptosporidium, E. coli, Salmonella and Cholera.

QuickDraw™ 1L Filter System

### QuickDraw™ 2L Filter System

With an increased storage capacity the QuickDraw 2L is the fast-flowing and easy-to-deploy squeeze filter system that keeps you moving forward.

With a higher storage capacity and the multi-reservoir compatibility of the ConnectCap, the QuickDraw 2L brings more flexibility to ultralight pursuits.

- **Premium Reservoir:** Included 2L reservoir is durable and free of plastic taste thanks to our proprietary tri-layer film construction.
- **Combine & Customize:** The ConnectCap™ delivers compatibility with common 28mm plastic bottles and Platy bottles, while the hose fitted with a CPC connector allows direct filtering to CPC fitted reservoirs like the BigZip™.
- **Fast Flowing:** 3 liters per minute with squeeze pressure and 1.75 liters per minute in a gravity setup.
- **Ultralight:** Weighing just 5.7 oz (161 g), it keeps things ultralight while increasing water capacity.
- **Safe & Effective:** Each filter is individually tested to ensure it meets all EPA & NSF guidelines for the removal of 99.9999% of bacteria and 99.9% of protozoa.\*
- **Integrity Test:** Determine if your filter has been compromised from a fall or freezing by performing a simple integrity test.
- Comes with 2L QuickDraw reservoir, dirty-side cap, ConnectCap™, and short hose with CPC connector.

\*Includes Giardia, Cryptosporidium, E. coli, Salmonella and Cholera.

## QuickDraw™ 3L Gravity Filter System

**Ideal for fast-moving groups, the QuickDraw 3L Gravity delivers the same fast, simple and ultra-versatile performance the QuickDraw lineup is known for in an effortless gravity-powered design.**

With a premium 3L reservoir, the QuickDraw 3L Gravity is ready to go right out of the box as the most complete system in the QuickDraw family, with the ConnectCap™ and Bottle Adapter delivering the most comprehensive reservoir compatibility of any QuickDraw system.

- **Combine & Customize:** Accessories like the ConnectCap, a hose with a male CPC connector and the wide and narrow-mouth compatible Bottle Adapter allow the system to be tailored and optimized.
- **Premium Reservoir:** 3L reservoir is taste-free and durable thanks to our proven construction technique and features a detachable hang strap to allow both gravity and squeeze filtering.
- **Fast Flowing:** 1.75 liters per minute in a gravity setup and 3 liters per minute with squeeze pressure.
- **Ultralight:** Weighing just 8.2 oz (233 g) it supports groups with clean water without weighing you down.
- **Integrity Test:** Determine if your filter has been compromised from a fall or freezing by performing a simple integrity test.
- **Safe & Effective:** Each filter is individually tested to ensure it meets all EPA & NSF guidelines for the removal of 99.9999% of bacteria and 99.9% of protozoa.\*
- Comes with 3L QuickDraw reservoir, dirty-side cap, DrinkCap, ConnectCap™, Bottle Adapter, long hose with CPC connector, shutoff clamp and storage bag.

\*Includes Giardia, Cryptosporidium, E. coli, Salmonella and Cholera.

### SCOOP & DRINK. IT'S THAT EASY.

Transform your favorite wide-mouth water bottle into an effortless scoop-and-drink water filter with the DayCap™. With a premium feel that complements the quality of your bottle, the hollow fiber technology delivers fast-flowing 0.2-micron filtration, so you spend less time worrying about clean hydration and more time enjoying the great outdoors.

HYDRO FLASK®

NALGENE®

YETI® YONDER™

## DayCap™ In-Bottle Filter

**The water bottle cap that transforms your favorite wide-mouth water bottle into a fast-flowing, ready-to-go water filter.**

For when you want to head out with easiest possible water filtration, we engineered the DayCap to seamlessly fit three popular wide-mouth water bottles and turn them into fast, safe and incredibly easy water filters.

- **Multi-Compatible:** Optimized to fit Nalgene® wide-mouth bottles, HydroFlask® wide-mouth bottles, and Yeti® Yonder™ bottles.
- **East-to-Use Design:** With a drink spout optimized for pulling water through the filter, all you need to do is tip your bottle up like usual and drink.
- **Premium Construction:** TPE mold construction is durable and complements the quality of your bottle.
- **Proven Filtration:** Hollow fiber filtration media is the same technology as our most popular and field-proven filters and filters up to 1 liter per minute.
- **Easy Cleaning:** Simply shake to clean with it attached to your bottle to break up particulates and restore flow rates.
- **Safe & Effective:** Each filter is individually tested to ensure it meets all EPA & NSF guidelines for the removal of 99.9999% of bacteria and 99.9% of protozoa.\*
- **Expertly Engineered:** Filter detaches with an easy half-turn for cap-only mode; spout shape is optimized for drinking and pouring; semi-flexible carry loop is a sturdy attachment point.

\*Includes Giardia, Cryptosporidium, E. coli, Salmonella and Cholera.

### Hoser™ Reservoir

**Ultralight, taste-free, with a high flow rate—the Hoser is the perfect minimalist reservoir.**

The original taste-free reservoir, the Hoser has evolved to offer a self-sealing bite valve with a 30% faster flow rate while retaining an ultralight, minimalist design for weight-conscious backpackers.

- **High-Flow Bite Valve:** The self-sealing HyFLO™ bite valve delivers a 30% increase in flow rate from the previous Hoser, making it quick and easy to hydrate on the go.
- **Versatile:** Classic threaded port and 1/4" dia. drink tube make it compatible with accessory caps and adapters.
- **Secure:** Integrated hanger and carry loop secure the reservoir in a backpack.
- **Taste-Free & Durable:** Our proprietary tri-layer film uses a rugged thermoplastic polyurethane outer layer and a taste-free polyethylene inner layer.
- **Microbe-Resistant:** Embedded silver-ion protects reservoir from mold and bacteria.

### Big Zip™ EVO Reservoir

**Premium taste-free, high-flow reservoir loaded with features for easy on-the-go hydration.**

The Big Zip EVO delivers a 50% increased flow rate from the previous Big Zip, making it the fastest-flowing, taste-free reservoir available to backpackers, hikers, and mountain bikers.

- **Fast & Easy:** The self-sealing HyFLO™ bite valve, leak-proof shutoff valve, and large 5/16" dia. tubing contribute to fast flow and ease of use.
- **Quick Access:** Low-profile shape and high-mount drink tube quick-disconnect make it easy to load/unload.
- **Easy to Fill & Clean:** Wide opening and one-handed grip eases filling and cleaning.
- **Microbe Resistant:** Embedded silver-ion protects reservoir from mold and bacteria.
- **Taste-Free & Durable:** Our proprietary tri-layer film uses a rugged thermoplastic polyurethane outer layer and a taste-free polyethylene inner layer.
- **Quicker Drying:** Semi-rigid baffle helps keep reservoir open, ensuring quicker drying with less fuss.

# WATERPROOF YOUR ADVENTURES

## SIGNATURE TECHNOLOGIES

### RADIO FREQUENCY (RF) WELDED SEAMS

Radio frequencies are employed to bond fabric together at the molecular level. This strong, long-lasting, reliably waterproof construction method withstands up to 2x more stress than sewn-and-taped seams, which can fail over time allowing water to pass through the materials.

### PURGEAIR™ VALVE

Waterproof, one-way valve vents air trapped in the dry bag while keeping water out. Our innovative valve is more durable and reliably waterproof than two-way fabric membranes and manual open/close valves.

### DRYSEAL™ CLOSURE

Our easy-to-use, dual-strip system amplifies roll-top closure protection while making it intuitive to achieve an optimal seal for the best waterproof protection.

### SEALLOCK™ CLOSURE

Discreet and easy-to-use dual-track zipper closure seals tight for confident submersible protection.

### CONTINUOUS COMPRESSION

Unlike conventional systems that pull against seams, our Continuous Compression system encircles the sack to minimize seam strain, maximizing durability for dependable protection.

## WATER PROTECTION RATINGS

### SPLASHPROOF

Protects gear from light rain and splashes.

### WATERPROOF

Protects gear from heavy rain and soakings.

### SUBMERSIBLE

Protects gear from full water submersion – withstands 1 meter of water for 30 minutes.

## EARTH-FRIENDLY MATERIALS

### PVC-FREE

We actively pursue the sourcing of PVC-free alternatives in some of our most popular products. A smaller eco-footprint and premium performance make it a win-win for all concerned.

### Pro™ Dry Pack

**Our most supportive & comfortable large-capacity waterproof pack.**

Your go-to choice for big river running, frequent portaging and worry-free expedition travel, the Pro boasts a heavy-duty suspension system built to support the biggest loads.

- **Waterproof:** Ultra-durable waterproof materials & welded seam construction for confident protection.
- **Full-Length Support:** Full-length framesheet transfers weight to the waist belt for optimal load support.
- **Premium Comfort:** Soft-edged padded shoulder straps, full-length breathable back panel padding, lumbar padding, and padded waist belt ensure comfort when hauling massive loads.
- **Tailored Fit:** Suspension system adjusts between three sizes—S, M, L—to fit torso lengths 17 in, 19 in and 21 in (43 cm, 48 cm and 53 cm).
- **Better Bottom:** Reinforced bathtub bottom delivers the ultimate in durability.
- **Light-Colored Interior:** Eases identification of contents.

### Black Canyon™ Dry Pack

**Versatile & comfortable large-capacity waterproof pack.**

From source to sea, and points between, the Black Canyon Dry Pack's versatility makes it a solid choice for any adventure where dry protection and comfort matter. The suspension system takes the sting out of lugging moderate loads.

- **Waterproof:** Ultra-durable waterproof materials & welded seam construction for confident protection.
- **Balanced Comfort:** A "just right" amount of support subdues moderate loads via padding on shoulder straps, waist belt, back and lumbar areas.
- **Light-Colored Interior:** Eases identification of contents.
- **Tight, Simple Sealing:** DrySeal™ roll-top closure makes it easy and intuitive to achieve an optimal seal and secures with side compression straps.
- **Streamline-able:** Shoulder straps and waist belt can be removed for a sleek profile.

### Pro™ Zip Duffel

**Our premium, comfortably portable and submersible gear hauler.**

For boaters, paddlers and adventure travelers seeking a top-of-the line submersible gear hauler, the Pro Zip Duffel offers highly durable gear protection in all conditions. The Pro features heavy-duty, PVC-free waterproof materials, RF-welded seams, corrosion-resistant hardware and a tough YKK AquaSEAL® waterproof zipper. Plus, it's extremely portable, with removable carry handles that double as shoulder straps for versatile, comfortable carrying.

- **Submersible Protection:** Rated to withstand full submersion in 1 meter of water for 30 minutes.
- **Comfortably Portable:** Removable carry handles/shoulder straps with strap keeper offer versatile carry options.
- **Lasting Durability:** Strong polyurethane-coated polyester, an abrasion-resistant bottom, and RF-welded construction provide long-lasting waterproof performance.
- **Easy Access:** Smooth-gliding, high-quality YKK AquaSEAL® waterproof zipper.
- **Easy, Secure Handling:** Four side-haul handles make for easy handling; lash points secure duffel to boats, vehicles, etc.

# DISCOVERY™ SERIES

Ultra-durable dry protection for exposed conditions.

Our most rugged and versatile dry bags, the Discovery Series is built to deliver resolute waterproof protection on raft trips, fishing expeditions, SUP day trips and overland adventures. Keep discovering what's around the next bend, again and again, with our top-of-the-line dry bags.

## SHARED FEATURES:

### BUILT FOR THE JOURNEY

Made of rugged, flexible, waterproof materials that withstand frequent and demanding use.

### WATERPROOF

Constructed with 100% waterproof materials and secure closures that seal out the elements.

### DURABLY CONSTRUCTED

Welded seams offer stronger, more durable waterproof construction compared to sewn-and-taped seams.

### OVAL BOTTOM

Stable shape keeps bag from rolling around and easy to store, stack and pack.

### TIGHT, SIMPLE SEALING

DrySeal™ roll-top closure makes it easier and more intuitive to achieve an optimal seal.

### PVC-FREE

Materials have a reduced environmental impact over vinyl-coated materials.

## Discovery™ Dry Bag

Ultra-durable, multipurpose dry protection.

Our Discovery Dry Bag is made of ultra-durable, PVC-free materials and features an oval bottom that makes packing the bag easier and keeps it from rolling around. The DrySeal™ roll-top closure ensures a tight, protective seal for use in demanding conditions.

• **Easy-View Interior:** Light or semi-translucent interiors allow you to easily spot contents within.

Discovery™ View Dry Bag

Ultra-durable dry protection with easy viewing.

Save time and energy by quickly identifying contents in our transparent Discovery View Dry Bag. A waterproof valve vents trapped air for simple closing and packing while the oval-bottom design keeps the bag from rolling around. Easily organize and locate your gear with the different color bottoms.

- **PurgeAir™-Equipped:** Waterproof, air-purging valve compresses bag further once sealed.
- **See Inside:** Translucent materials allow content identification without opening the bag.

## DRY ACCESSORIES PROTECTION FOR YOUR MOST VALUABLE ASSETS

Dry accessories were built to provide use-specific protection from the elements for things like maps, electronics, keys and travel documents. From an e-book on a summer beach vacation to lashing your charts to a kayak deck in the Queen Charlottes, we've got you covered.

PHOTO: EARL HARPER

### Map Case

**Easy-access, PVC-free protection for maps and more.**

Our PVC-free Map Case is made to withstand the harsh, demanding conditions of paddling expeditions, adventure races and overland journeys—all with a smaller environmental impact.

- **Waterproof:** Constructed with 100% waterproof materials & welded seams.
- **Versatile:** D-rings for easy gear attachment.
- **Lasting Visibility:** Clear polyurethane resists UV damage.
- **Easy Access:** Waterproof zip closure for quick and easy access.
- **PVC-Free:** Keeps persistent PVCs out of the environment.

Map Case

MATERIALS	Polyurethane Film, Polypropylene Webbing	
MADE IN	CHINA	

E-Case® Protective Case

Submersible protection for everyday essentials.

Ensuring everyday essentials stay dry, these cases deliver submersible protection and have a quick, easy zip opening.

- **Submersible Protection:** Individually tested to IPX7 standard of withstanding full submersion in 1 meter of water for 30 minutes.
- **Full Functionality:** Ultra-clear polyurethane windows allow full functionality of touchscreens, cameras, and voice functions.
- **Easy Security:** SealLock™ zippered seal and rugged RF-welded seams ensure protection from the elements.

## Personal

**Our best-selling, ultra-versatile and eco-conscious adventure towel.**

The 50% recycled Personal delivers the light, compact, super-absorbent and quick-drying performance to make it the best option for traveling, camping, water sports and everyday gym workouts. You won't find a limit to this towel's utility.

- **Superfast Drying:** Dries 70% faster than comparable cotton towels; hang loop to make it even easier.
- **Sustainably Made:** 50% recycled fabric reduces environmental impact by limiting waste in the textile supply chain.
- **Polygiene®:** Eco-friendly silver-ion odor control keeps towel fresh longer.

# PERSONAL ARTIST SERIES COLLECTION

## Gianna Andrews

There are times where we would prefer to be out in nature, but life keeps us inside. Drawing on personal experience, Gianna's work for PackTowl's Artist Series transports us to where we would prefer to be: immersed in the natural world.

Artist of Desert Aire

## Kristina Wayte Bakke

With her signature blend of energetic lines and expressive brush strokes, Kristina's work for PackTowl's Artist Series captures the world of movement in which all outdoor adventurers live.

Artist of Flow and Daydream

## Shogo Ota

With an unmistakable aesthetic informed by the art found in tiny everyday details, Shogo highlights the PNW he calls home for PackTowl's Artist Series and evokes the fun and vibrant adventure lifestyle it inspires.

Artist of Orca and Mystic Moose

## Emily Kelley

For PackTowl's Artist Series, Emily contemplated the many places a towel will go and the human experiences it will witness. Her work evokes the essential peace in vulnerability we find when we connect with nature.

Artist of Balance

## Luxe

**The most eco-conscious and luxurious quick-dry towel out there.**

Now made with recycled fabrics, enjoy your time traveling, camping, or on the water, with the sustainable fast-drying performance and comfort of the Luxe. Thanks to soft, luxurious and super-absorbent terry knit looped fabric, everyday adventurers can bring the comfort of home along and improve their environmental impact along the way.

- **Fast Drying:** Dries 30% faster than comparable cotton towels.
- **Recycled Fabric:** 50% recycled fabric reduces environmental impact by limiting waste in the textile supply chain.
- **Polygiene®:** Eco-friendly silver-ion odor control keeps towel fresh longer.

## Changing Poncho

**A towel and changing room in one: the newest travel and adventure essential.**

Made with the odor-resistant, hyper-absorbent and fast-drying material PackTowl is known for in a convenient style for changing and privacy, the Changing Poncho will be a must-have for travelers and adventurers of all types.

- **Portable Changing Room:** The poncho silhouette makes changing easy and private wherever you are.
- **Quick Drying:** Dries faster than comparable cotton fabric; easy to dry with convenient hang loop.
- **Sustainably Made:** 85% recycled fabric reduces environmental impact.
- **Odor Control:** Odor control treatment keeps poncho fresh longer.
- **Kangaroo Pocket:** A large kangaroo-style pocket keeps hands warm or holds a change of clothes when you have nowhere else to set them when changing.
- **Made for Everyone:** Two sizes so everyone can have a comfortable fit.
